Letter of Recommendation

To Whom It May Concern:

I, Bill Schnurr, Owner of W.J. Schnurr Custom Renovations, can assure you that Isaac Azari, of Tip Top Electric Ltd, is an excellent electrician. I have been using Tip Top Electric since 2002, when Isaac first formed his own company, and have always had peace of mind, knowing that the electrical work, being carried out on my projects, was being handled by Isaac. He has always done his work in accordance with the highest standards, in a safe, reliable, and smart way. He has a very good work ethic, and always shows foresight, so that the jobs are done properly, and promptly. Having renovated homes in the Toronto area for almost 20 years, I have uncovered a lot of poor workmanship. Isaac's work is of such quality, it is a shame to cover it with drywall,- but it is very comforting to know that his work is done properly, neatly, and professionally. My clients feel the same way about Isaac's work, and in all the years that Isaac has done electrical work for W.J. Schnurr Custom Renovations Ltd, there has never been a call back. I would highly recommend Tip Top Electric for any residential or commercial electrical work, wheather the job is small, or large.

Sincerely,

Bill Schnurr—Owner W.J.Schnurr Custom Renovations Ltd.
